

GIANT Training (May 2021)

The GIANT Sustainment team is pleased to announce training classes the week of 10 May 2021. Training will be offered for GIANT 5.4.1 virtually using Webex. **There is no fee to attend the GIANT Training, however space is limited.** This class is open to US government and contractor personnel, with appropriate 'need to know'.

Monday and Tuesday, 10-11 May 2021 (0800 to 1600 MST): Analytical Training

This class focuses on engineering and analysis applications of GIANT. The training covers the process of creating scenarios, modifying user equipment, space segment, and GPS Jammer definitions. This is a two-day training session with hands on exercises led by senior analysts and engineers from the GIANT program.

Friday, 14 May 2021 (0800 to 1300 MST): GIANT RPM Training

The focus of this course is the use of RPM to generate the required reports for test planning coordination. The training will take a user through the process of creating transmitter sites, defining antenna and signal models, and generating RPM reports.

How to Register:

GIANT training registration is now available through the GIANT website. Please visit the GIANT website at www.giantsw.com to complete and submit all registration forms.

Registration for this training session will close on 19 April 2021.

Note that all requests for training must be approved by the Model manager. As your request for training is approved, you will receive an E-Mail confirmation of enrollment for the requested class, which will include additional instructions to support the virtual training.

If you do not receive a confirmation E-Mail or response in regards to being placed on a wait-list, please contact the GIANT sustainment team directly at giant@linquest.com (937) 306.6076.

For additional information see: <http://www.giantsw.com>.

Respectfully,
//Signed//
Hanson Finley, 2d Lt, USSF
SMC/ECPG, GIANT Model Manager
